### BLUE COAT WEB APPLICATION REVERSE PROXY

BlueTouch Training Services

The Blue Coat Web Application Reverse Proxy course is intended for IT network professionals who wish to master the fundamentals of deploying the Blue Coat ProxySG in reverse proxy mode. After completing this course, you will able to:

- Define reverse proxy
- Explain the advantages of using the ProxySG in reverse proxy mode
- Identify various reverse proxy deployment types
- Describe how the ProxySG in reverse proxy mode handles HTTPS/SSL

#### **Duration / Format**

1 day (8 hours) / available as virtual classroom training (VCT)

#### Audience / Target Group

IT network and security professionals with responsibilities for the installation and administration of ProxySG.

#### **Prerequisites**

Completion of the Blue Coat Certified ProxySG Administrator (BCCPA) course.

#### **Registration / Course Ordering Information**

- Configure forwarding for reverse proxy
- Create policies for access control, authentication, and threat mitigation
- Troubleshoot the ProxySG in reverse proxy mode

#### **Course Description and Contents**

The Web Application Reverse Proxy Course covers:

- Introduction to Web Application Reverse Proxy
- Reverse Proxy Deployments
- Caching
- Access Controls and Authentication Policies
- Reverse Proxy Security Deployment
